An abstract graphic design featuring a composition of overlapping geometric shapes. A large teal shape, resembling a stylized 'L' or a corner, dominates the left and top portions. A bright yellow shape, also in a geometric form, is positioned in the lower right, partially overlapping the teal. A deep purple shape is located in the upper left, overlapping the teal. The background is a solid, light cream or off-white color. The overall style is modern and minimalist, with sharp edges and a limited color palette.

An abstract geometric pattern composed of several rectangular blocks in teal, purple, and yellow. The blocks are arranged in a non-uniform, staggered fashion, creating a complex, layered visual effect. The teal blocks are primarily in the upper left and middle right sections. The purple blocks are located in the upper right and middle left sections. The yellow blocks form the base of the pattern, with some blocks extending upwards into the middle section. The overall composition is asymmetrical and modern.
